

Homework Consent Form

We have had a number of students requesting homework support during their session at California Learning Center. With your permission, we will be happy to help you child with his/her homework. Please keep in mind that by taking the extra time to assist your child with homework, this may prevent your child from meeting his/her goals in 48 sessions.

Please specify the school subjects and the amount of time we can spend working on homework during your child's session. Thank you.
